

# New Director at PhotonicNet

Hanover, Germany (cb) –The board of PhotonicNet GmbH appointed Dr.-Ing. Thomas Fahlbusch to be Managing Director (CEO) of PhotonicNet. He succeeds Dr. H.-J. Hartmann, who managed the Network successfully for 8 years. Dr. H.-J. Hartmann will be further involved in the optical network due to his new position as a project manager for the OptecNet Deutschland e.V.

After an employment as developing engineer in industry Dr.-Ing. T. Fahlbusch worked as a research engineer at the Institute of Transport and Automation Technology (ITA) at Hanover University. Having finished his dissertation on "Dispensed Polymer Waveguides" in 2007 he continued research activities at the Institute for Measurement and Automatic Control in his position as chief engineer. There
